TO WHOM IT MAY CONCERN

**Reference: Bunbury Buiding Company**

This letter confirms that Bunbury Building Company was the successful tenderer for renovation works at the writers private 2 storey beach front residence at 4 Bennett Way, Bunbury WA.

Value of the works let to Bunbury Building Company was approximately \$75,000.

Bunbury Building Company, under the direct supervision of John Buckingham, completed the works in late 2015 on schedule and on budget, and to a quality that exceeded our expectations.

John was particulary helpful in addressing and working around any design issues as they cropped up, and ensuring that the finish sufficiently accounted for the extremely harsh weather condtions experienced during winters at the subject location.

We where also very impressed with the attitude to safety displayed by John and his staff during the project, particularly that the work was conducted whilst we where living in the house with our 3 children.

We have no hesitation in recommending Bunbury Building Company, and would certainly be very pleased to use Bunbury Buiding Company for future works.

Your Sincerely
